INDUSTRY SKILLS

HTML · CSS · JavaScript · React ·

Tailwind CSS · Git · GitHub

UX/UI · Design mockup and wireframes ·

SEO · Building APIs · Test performance

STRENGTHS

💎 Creativity

Able to approach problems and interfaces with fresh ideas, turning vague requirements into clear, usable designs and experiences.

💎 Problem-solving

Strong ability to break down issues logically and find practical solutions, especially when debugging UI or implementing complex features.

✍️ Attention to detail

Careful with layout, spacing, alignment, and user interaction flow to ensure polished and professional outcomes.

★ Communication

Clear in discussing ideas, asking the right questions, and aligning expectations with clients and collaborators.

💎 Adaptability

Comfortable adjusting to new tools, project requirements, and client feedback without losing momentum or quality.

JAMES OPARA

Frontend Developer

<https://www.linkedin.com/in/james-c-opara> Ibadan, Nigeria

SUMMARY

Front-end developer with 2+ years of experience in designing and building responsive web design in the e-commerce and education industry. Proficient with HTML, CSS, JavaScript, Tailwind and JS Frameworks (React), with extensive knowledge of UX and User psychology. Notable achievements include boosting the conversion rate of an existing website by 80% with improved code and design.

EDUCATION

B.S. Mathematics 2020 - Present

University of Ibadan Ibadan, Nigeria

- The major was largely focused on core areas including abstract algebra, linear algebra, real and complex analysis, with strong emphasis on logical reasoning, analytical problem-solving, and quantitative modeling
- Applied mathematical reasoning to break down complex UI problems into structured, maintainable frontend components
- Strengthened logical thinking and algorithmic mindset, improving JavaScript problem-solving and code efficiency
- Developed strong attention to detail through proofs and problem sets, translating into precise UI implementation and debugging
- Leveraged statistical and analytical thinking to better understand user behavior and optimize interface decisions

GPA | 1.5 / 4.0

EXPERIENCE

Front End Developer 2026 - Present

Lucid Forge Ibadan, Nigeria

Lucid Forge is a web development freelance agency focused on building fast, scalable, and conversion-driven digital experiences. The agency specializes in modern frontend engineering, e-commerce customization, and responsive UI systems that help businesses turn ideas into functional, high-performing websites.

The approach is grounded in clean architecture, maintainable code, and user-first design principles. Every project is treated as a product build, not just a website delivery - prioritizing performance, accessibility, and long-term scalability.

Lucid Forge works with startups, small businesses, and growing brands that need reliable web solutions that look sharp and perform under real-world usage.

- Built and maintained responsive, high-performance websites using modern frontend technologies (HTML, CSS, JavaScript, and component-based architecture).
- Translated client requirements into functional UI/UX implementations, ensuring clarity between design intent and final product delivery.
- Developed reusable UI components and modular code structures to improve scalability and reduce development time across projects.
- Ensured cross-browser compatibility and mobile responsiveness across a wide range of devices and screen sizes.
- Collaborated with clients to iterate on features, debug issues, and refine interfaces based on feedback and usability needs.
- Integrated third-party APIs and services where required to extend functionality (payments, forms, analytics, etc.).
- Applied accessibility best practices (semantic HTML, ARIA attributes, keyboard navigation support) to improve usability.
- Debugged and resolved frontend issues efficiently using browser dev tools and systematic code inspection.
